Operating expenses (excluding football trading)

Net finance expenses

Results and dividends

The audited consolidated income statement for the year ended 30 June 2015 is set out on page 8.

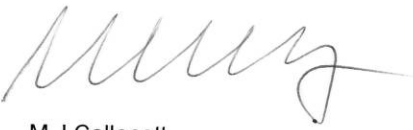

The Directors have not recommended the payment of a dividend (2014: £nil).

Financial risk management objectives and policies

The Group is exposed to financial risk through its financial assets and liabilities. The key financial risk is that the proceeds from financial assets are not sufficient to fund the obligations arising from liabilities as they fall due. The most important components of financial risk are interest rate risk, currency risk, credit risk, liquidity risk, cash flow risk and price risk. Due to the nature of the Group's business the financial risks that the Directors consider particularly relevant to the Company are interest rate risk, currency risk and cash flow risk.

The Group addresses cash flow risk by carefully managing its working capital inflows and outflows. The Group hedges its interest exposure by using fixed interest rate facilities where it is deemed appropriate. The Group is exposed to foreign currency exchange risk through its player transactions but manages its working capital inflows and outflows to minimise any material foreign exchange risk. The Group does not enter into complex financial instruments for speculative purposes. Further information is provided in note 17 to the financial statements.

At the year end ENIC Sports Inc., a wholly owned subsidiary of ENIC, held 182,153,431 ordinary shares of Tottenham Hotspur Limited representing 85.55% of those in issue and therefore ENIC are the ultimate parent of Tottenham Hotspur Limited.

At the year end Macon Inc., a company with which the Group is under common control, held 3,000,000 preference shares of £0.001 in the Company (2014: 4,000,000).

Matthew Collecott and Donna-Marie Cullen are trustees of the Tottenham Hotspur Foundation, unpaid positions to assist the direction and performance of the Charity.

Details of the Directors' emoluments are given in note 5 of the consolidated accounts. Directors' interests in contracts are disclosed in note 22.

Disclosure of information to the auditor

In the case of each of the persons who are Directors of the Company at the date when this report was approved:

- so far as each of the Directors is aware, there is no relevant audit information (as defined by the Companies Act 2006) of which the Company's auditor is unaware;
- and each of the Directors has taken all of the steps that he/she ought to have taken as a Director to make himself/herself aware of any relevant audit information (as defined) and to establish that the Company's auditor is aware of that information.

This information is given and should be interpreted in accordance with the provision of Section 418 of the Companies Act 2006.

Post balance sheet events

Details of post balance sheet events are given in note 25 to the accounts.

Financial risk management objectives and policies

Details of financial risk management objectives and policies are given in the Strategic report.

Charitable and political donations

The Group made cash donations of £48,872 to international, UK-based and local charities during the year (2014: £101,363). The Group made no political donations during the year (2014: £nil). The Group continues to make contributions with a value in excess of £0.5m per annum to the Tottenham Hotspur Foundation and continues to underwrite the ongoing good works of the charity. In addition, the Group makes many other contributions of Tottenham Hotspur Football Club memorabilia to local registered charities, especially in the Haringey and Enfield districts and adjacent catchment areas.

Disabled employees

Applications for employment by disabled persons are always considered fully, bearing in mind the aptitudes of the applicant concerned. In the event of members of staff becoming disabled, every effort is made to ensure that their employment within the Group continues and appropriate training is arranged. It is the policy of the Group that the training, career development and promotion of disabled people should, as far as possible, be identical to that of other employees.

Employees consultation

The Group places considerable value on the involvement of its employees and has continued to keep them informed on matters affecting them as employees and on the various factors affecting the Group. This is achieved by departmental meetings and intranet notices.

Supplier payment policy

The Group's policy on payment of creditors is to negotiate payment terms when agreeing the terms of each transaction. In the majority of cases this involves payment within 30 days of the invoice date; however, where discounts are available it is generally the policy to pay earlier and benefit accordingly. Trade payables at 30 June 2015 represented 53 days (2014: 42 days) of annual purchases. This figure excludes contracted creditors in respect of player purchases and capital costs which are paid on their contractual due dates.

Tangible fixed assets

In the opinion of the Directors, the current open market value of the Group's interests in land and buildings is in line with the book value.

Directors' indemnities

The Group has not made any qualifying third-party indemnity provisions for the benefit of its Directors during the year.

Going concern

The Board of Directors continually monitors the Group's exposure to a range of risks and uncertainties, including the success of the First Team and our level of spending thereon, the current economic landscape and the additional funding requirements of a new stadium development. These risks and uncertainties, the Group's financial performance and position for the year and its cash flows and funding position, are detailed elsewhere in the Directors' Report. In addition, note 17 to the financial statements includes the Group's objectives, policies and processes for managing its capital, its financial risk management objectives and its exposure to credit and liquidity risk. The Directors believe that these risks and uncertainties are mitigated by, inter alia, the robust nature of our business with long-term fixed revenues from the key business areas, notably the FA Premier League (FAPL) TV deal beginning from the 2016-17 season.

The Board of Directors has recently undertaken a thorough review of the Company's budgets and forecasts and has produced detailed and realistic cash flow projections. These cash flow projections which, when considered in conjunction with the Group's existing loans, overdrafts and cash, which include consideration of reasonably possible changes in trading performance and available banking facilities, demonstrate that the Group will have sufficient working capital for the foreseeable future. The Board of Directors acknowledges that the capital structure of the business will change as the Northumberland Development Project (NDP) progresses, and is satisfied the necessary level of funding can be obtained. Consequently, the Directors believe that the Company has adequate resources to continue in operational existence for the foreseeable future and the financial statements have been prepared on the going concern basis.

Auditor

Deloitte LLP have indicated their willingness to be reappointed for another term and appropriate arrangements have been put in place for them to be deemed reappointed as auditor in the absence of an Annual General Meeting.

Directors' responsibilities statement

The directors are responsible for preparing the Annual Report and the financial statements in accordance with applicable law and regulations. Company law requires the directors to prepare financial statements for each financial year. Under that law the directors have elected to prepare the group financial statements in accordance with International Financial Reporting Standards (IFRSs) as adopted by the European Union and the parent company financial statements in accordance with United Kingdom Generally Accepted Accounting Practice (United Kingdom Accounting Standards and applicable law). Under company law the directors must not approve the financial statements unless they are satisfied that they give a true and fair view of the state of affairs of the company and of the profit or loss of the company for that period.

In preparing the parent company financial statements, the directors are required to:

- select suitable accounting policies and then apply them consistently;
- make judgments and accounting estimates that are reasonable and prudent;
- state whether applicable UK Accounting Standards have been followed, subject to any material departures disclosed and explained in the financial statements; and
- prepare the financial statements on the going concern basis unless it is inappropriate to presume that the company will continue in business.

In preparing the group financial statements, International Accounting Standard 1 requires that directors:

- properly select and apply accounting policies;
- present information, including accounting policies, in a manner that provides relevant, reliable, comparable and understandable information;
- provide additional disclosures when compliance with the specific requirements in IFRSs are insufficient to enable users to understand the impact of particular transactions, other events and conditions on the entity's financial position and financial performance; and
- make an assessment of the company's ability to continue as a going concern.

The directors are responsible for keeping adequate accounting records that are sufficient to show and explain the company's transactions and disclose with reasonable accuracy at any time the financial position of the company and to enable them to ensure that the financial statements comply with the Companies Act 2006. They are also responsible for safeguarding the assets of the company and hence for taking reasonable steps for the prevention and detection of fraud and other irregularities.

The directors are responsible for the maintenance and integrity of the corporate and financial information included on the company's website. Legislation in the United Kingdom governing the preparation and dissemination of financial statements may differ from legislation in other jurisdictions.

The financial reporting framework that has been applied in the preparation of the group financial statements is applicable law and International Financial Reporting Standards (IFRSs) as adopted by the European Union. The financial reporting framework that has been applied in the preparation of the parent company financial statements is applicable law and United Kingdom Accounting Standards (United Kingdom Generally Accepted Accounting Practice).

This report is made solely to the company's members, as a body, in accordance with Chapter 3 of Part 16 of the Companies Act 2006. Our audit work has been undertaken so that we might state to the company's members those matters we are required to state to them in an auditor's report and for no other purpose. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the company and the company's members as a body, for our audit work, for this report, or for the opinions we have formed.

Respective responsibilities of directors and auditor

As explained more fully in the Directors' Responsibilities Statement, the directors are responsible for the preparation of the financial statements and for being satisfied that they give a true and fair view. Our responsibility is to audit and express an opinion on the financial statements in accordance with applicable law and International Standards on Auditing (UK and Ireland). Those standards require us to comply with the Auditing Practices Board's Ethical Standards for Auditors.

Scope of the audit of the financial statements

An audit involves obtaining evidence about the amounts and disclosures in the financial statements sufficient to give reasonable assurance that the financial statements are free from material misstatement, whether caused by fraud or error. This includes an assessment of: whether the accounting policies are appropriate to the group's and the parent company's circumstances and have been consistently applied and adequately disclosed; the reasonableness of significant accounting estimates made by the directors; and the overall presentation of the financial statements. In addition, we read all the financial and non-financial information in the annual report to identify material inconsistencies with the audited financial statements and to identify any information that is apparently materially incorrect based on, or materially inconsistent with, the knowledge acquired by us in the course of performing the audit. If we become aware of any apparent material misstatements or inconsistencies we consider the implications for our report.

Opinion on financial statements

In our opinion:

- the financial statements give a true and fair view of the state of the group's and of the parent company's affairs as at 30 June 2015 and of the group's profit for the year then ended;
- the group financial statements have been properly prepared in accordance with IFRSs as adopted by the European Union;
- the parent company financial statements have been properly prepared in accordance with United Kingdom Generally Accepted Accounting Practice; and
- the financial statements have been prepared in accordance with the requirements of the Companies Act 2006.

Opinion on other matter prescribed by the Companies Act 2006

In our opinion the information given in the Strategic Report and the Directors' Report for the financial year for which the financial statements are prepared is consistent with the financial statements.

Matters on which we are required to report by exception

We have nothing to report in respect of the following matters where the Companies Act 2006 requires us to report to you if, in our opinion:

- adequate accounting records have not been kept by the parent company, or returns adequate for our audit have not been received from branches not visited by us; or
- the parent company financial statements are not in agreement with the accounting records and returns; or
- certain disclosures of directors' remuneration specified by law are not made; or
- we have not received all the information and explanations we require for our audit.

1. Accounting policies and critical accounting judgements

The following accounting policies have been applied consistently by the Directors in both the current and preceding periods in dealing with items which are considered material in relation to the Group's accounts.

Going concern

The Directors have, at the time of approving the financial statements, a reasonable expectation that the Company and the Group have adequate resources to continue in operational existence for the foreseeable future. Thus they continue to adopt the going concern basis of accounting in preparing the financial statements. Further detail is contained in the Directors' Report on page 5.

Tottenham Hotspur Ltd is a company incorporated in the United Kingdom. The nature of the Group's operations and its principal activities is set out in the Strategic report on page 1.

Basis of accounting

The financial statements have been prepared in accordance with International Financial Reporting Standards (IFRS) adopted by the European Union. The financial statements have been prepared on a historical cost basis, except for the revaluation of certain properties.

Basis of consolidation

The Group financial statements incorporate the financial statements of Tottenham Hotspur Limited (the 'Company') and entities controlled by the Company (its subsidiaries) made up to 30 June each year. Control is achieved where the Company has the power to govern the financial and operating policies of an investee entity so as to obtain benefit from its activities.

The results of subsidiaries acquired during the year are included in the consolidated income statement from the effective date of acquisition.

Revenue

Revenue is measured at the fair value of the consideration received or receivable and represents amounts receivable in the normal course of business, net of discounts, VAT and other sales-related tax.

Merchandising revenue is recognised when goods are delivered and title has passed.

Gate receipts and other matchday revenue are recognised as the games are played. Prize money in respect of cup competitions is recognised when received. Sponsorship and similar commercial income is recognised over the duration of the respective contracts. The fixed element of broadcasting revenues is recognised over the duration of the football season whilst facility fees received for live coverage or highlights are taken when earned. Merit awards are accounted for only when known at the end of the football season.

Capital grants

Capital grants relate to amounts receivable from public bodies and football authorities and are treated as deferred income and released to the income statement over the estimated useful life of the asset concerned.

Foreign exchange

Transactions denominated in foreign currencies are translated into Sterling and recorded at the rates of exchange ruling at the date of the transactions. Monetary assets and liabilities denominated in a foreign currency are translated into Sterling at the exchange rates ruling on the balance sheet dates. Translation differences are dealt with in the income statement.

Player costs and transactions

(a) Initial capitalisation

The costs associated with the acquisition of players and key football management staff registrations are capitalised as intangible fixed assets. Any intangible assets acquired on deferred terms are recorded at the fair value at the date of acquisition. The fair value represents the net present value of the costs of acquiring players and key football management staff registrations.

(b) Amortisation

These costs are fully amortised on a straight-line basis over their useful economic lives, in equal annual instalments over the period of the respective contracts. Where a contract life is renegotiated, the unamortised costs, together with the new costs relating to the contract extension, are amortised over the term of the new contract.

(c) Contingent consideration

Under the conditions of certain transfer agreements, further fees will be payable to the vendors in the event of the players concerned making a certain number of First Team appearances or on the occurrence of certain other specified future events. Liabilities in respect of these additional transfers are accounted for, as provisions, when it becomes probable that the number of appearances will be achieved or the specified future events occur.

1. Accounting policies and critical accounting judgements (continued)

(d) Impairment

The Group will perform an impairment review on the intangible assets if events or changes in circumstances indicate that the carrying amount of the player may not be recoverable. The Group compares the carrying amount of the asset with its recoverable amount.

The Group does not consider that it is possible to determine the value in use of an individual football player in isolation as that player (unless via a sale or insurance recovery) cannot generate cash flows on his own. Furthermore, the Group also considers that all of the players are unable to generate cash flows even when considered together. Accordingly the Group considers the smallest cash-generating unit to contain all the other First Team players, the Stadium and the training facilities.

The Group calculates the value in use of this cash-generating unit by discounting estimated expected future cash flows (being the pre-player trading cash flows generated by the Group's existing operations and any future capital expenditure on the ground and First Team squad). The Group compares this with its assessment of the fair value less costs to sell of all of the First Team players and the higher of these two numbers is deemed to be the recoverable amount.

In certain rare instances there may be an individual player whom the Group does not consider to be part of the First Team squad going forwards and who will therefore not contribute to the future cash flows earned by the cash-generating unit. This is normally due to a permanent career-threatening injury, a serious and permanent fall out with the Group's senior football management and Directors, or where Group's senior football management and Directors have decided the player is not part of the Club's plans (only in cases where the player's market value fundamentally impacts the intangible assets held in relation to the carrying value of the first team squad).

As a consequence of such situations the Group consider it highly unlikely that the player will play for the First Team for a significant part of the remaining duration of the player's contract. In such situations, the carrying value of the player is removed from the carrying value of players assessed as part of the cash-generating unit referred to above and instead this player will be assessed for impairment in isolation by considering his carrying value with the Group's best estimate of his fair value (less costs to sell). The Group estimate this using one of the following sources:

- in the case of a player who has suffered a career-threatening injury, the value attributed to the player by the Group's insurers;
- in the case of a player who has permanently fallen out with the Group's senior football management and Directors, or where they decided the player is not part of the Club's plans, then either:
 - i) the agreed selling price in the event the player has been transferred subsequent to the year end; or
 - ii) if there have not been any bids for the player, management's best estimation of the disposal proceeds (less costs) of the player on an arm's length basis. This is determined by the Group's senior football management in conjunction with the Directors who will use the outcome of recent player disposals (by both the Group and other football clubs) as a basis for their estimation.

(e) Disposals

Profits or losses on the disposal of these registrations represent the fair value of the consideration receivable, net of any transaction costs, less the unamortised cost of the original registration.

(f) Remuneration

Remuneration of players is charged in accordance with the terms of the applicable contractual agreements and any discretionary bonus when there is a legal or contractual obligation.

Liabilities in respect of player loyalty fees are provided for, as part of operating expenses, when payment becomes probable as the player is contracted to the Club and the loyalty fee is payable prior to the next transfer window at the date the accounts are signed.

Present obligations arising under onerous employment contracts are recognised and measured as provisions. An onerous contract is considered to exist where the Group has a contract under which the unavoidable costs of meeting the obligations under the contract exceed the economic benefits expected to be received under it.

Finance costs

Finance costs of borrowings are recognised in the income statement using the effective interest method. The effective interest rate is the rate that exactly discounts estimated future cash flows through the expected life of the borrowing.

In accordance with IAS 39 'Financial Instruments: recognition and measurement', any non-current assets acquired on deferred terms are recorded at the discounted present value at the date of acquisition. The associated payable is then increased to the settlement value over the period of deferral, with this value being charged as a notional finance cost through the income statement.

Similarly any intangible asset disposed of on deferred terms will be initially recorded at the discounted present value of future receipts and the receivable is then increased to the settlement value over the period of deferral with this value being charged as notional finance income through the income statement.

1. Accounting policies and critical accounting judgements (continued)

In respect of intangible asset acquisitions, the differing rate at which the finance cost and amortisation are recognised in the income statement produces a deferred tax credit. In respect of intangible asset disposals, the finance income recognised produces a deferred tax asset. The adjustments are stated net of deferred tax.

Tax

The tax expense represents the sum of the tax currently payable and deferred tax.

The tax currently payable is based on taxable profit for the year. Taxable profits differ from net profit as reported in the income statement because they exclude items of income or expense that are taxable or deductible in other years and they further exclude items that are never taxable or deductible. The Group's liability for current tax is calculated using tax rates that have been substantively enacted by the balance sheet date.

Deferred tax is the tax expected to be payable on the differences between the carrying amounts of assets and liabilities in the financial statements and the corresponding tax bases used in the computation of taxable profit and is accounted for using the balance sheet liability method. Deferred tax liabilities are generally recognised for all taxable temporary differences and deferred tax assets are recognised to the extent that it is probable that taxable profits will be available against which deductible temporary differences can be utilised.

Deferred tax is charged or credited in the income statement.

Property, plant and equipment

Freehold land is not depreciated. Leasehold property is amortised over the term of the lease. Other fixed assets are depreciated on a straight-line basis at annual rates appropriate to their estimated useful lives as follows:

| | |
|-----------------------------|------------------------------|
| Freehold properties | 2% |
| Motor vehicles | 20% |
| General plant and equipment | 10 – 33% |
| Leasehold improvements | Over the length of the lease |

The Group capitalises costs in relation to an asset when economic benefit from the asset is considered probable. Assets under the course of construction are carried at cost and include professional fees. Depreciation commences when the assets are ready for their intended use.

Inventories

Inventories, which comprise goods held for resale, are valued at the lower of cost and net realisable value using the average cost method.

Debt

Debt is stated initially at the amount of the net proceeds after deduction of issue costs. The carrying amount is increased by the finance cost in respect of the accounting period and reduced by payments made in the accounting period.

Leases

Rental costs under operating leases are charged to the income statement in equal annual amounts over the periods of the leases.

Pension costs

Payments are made to the external defined contribution pension schemes of eligible employees of the Group. The pension cost charged in the year represents contributions payable by the Group to these schemes.

In addition the Group is making contributions in respect of its share of the deficit of the defined benefit section of the Football League Pension and Life Assurance Scheme (the 'Scheme'). A provision has been established for the Group's share of the deficit which exists in this section of the Scheme.

Under the provisions of IAS 19 'Employee Benefits' the Scheme would be treated as a defined benefit multi-employer scheme. The Scheme's actuary has advised that the participating employers' share of the underlying assets and liabilities cannot be identified on a reasonable and consistent basis and, accordingly, no disclosures are made under the provisions of IAS 19.

Capital redemption reserve

This relates to ordinary shares bought back through the share buy back scheme.

New standards and interpretations

The accounting policies applied by the Group in these consolidated financial statements are the same as those applied by the Group in its consolidated financial statements as at and for the year ended 30 June 2014.

Other standards introduced during the period had no impact on these financial statements.

Financial assets and liabilities

Financial assets and liabilities are recognised in the Group's balance sheet where the Group becomes a party to the contractual provisions of the asset/liability.

Impairment of financial assets

All financial assets are assessed for indicators of impairment at each balance sheet date.

1. Accounting policies and critical accounting judgements (continued)

Derecognition of financial liabilities

The Group derecognises financial liabilities when, and only when, the Group's obligations are discharged, cancelled, or they expire.

Future accounting developments

At the date of authorisation of these financial statements, the following Standards and Interpretations which have not been applied in these financial statements were in issue but not yet effective (and in some cases had not yet been adopted by the EU):

- IFRIC 21, 'Levies' (effective from the Group's 2015/16 financial year);
- IFRS 15, 'Revenue from contracts with customers' (effective from the Group's 2017/18 financial year);
- IFRS 9, 'Financial instruments' (effective from the Group's 2018/19 financial year).

The Directors do not expect that the adoption of the other standards listed above will have a material impact on the financial statements of the Group in future periods.

Critical accounting judgements and estimates

In the application of the Group's accounting policies, which are described herein, the Directors are required to make judgements, estimates and assumptions about the carrying value of assets and liabilities that are not readily apparent from other sources. The estimates and associated assumptions are based on historical experience and other factors that are considered to be relevant. Actual results may differ from these estimates.

The principal balances in the financial statements where changes in estimates and assumptions may have a material impact are:

Contingent liabilities

Current liabilities and provisions contain contingent bonuses payable to employees, players and clubs and are based on the best information available to management at the balance sheet date. However, the future costs assumed are inevitably only estimates, which may differ from those ultimately incurred.

Recoverable amount of non-current assets

Property, plant and equipment and intangible assets

All non-current assets, including property, plant and equipment and intangible assets, are reviewed for potential impairment using estimates of the future economic benefits attributable to them. Such estimates involve assumptions in relation to future ticket income, media and sponsorship revenue and on pitch performance. Any estimates of future economic benefits made in relation to non-current assets may differ from the benefits that ultimately arise, and materially affect, the recoverable value of the asset.

Assets under construction

The assets classified under 'in the course of construction' relate to the Group's main ongoing capital project: the proposed Northumberland Development Project (NDP). IAS 16 requires that for an asset to be capitalised it must result in a probable economic benefit. Therefore, once this project begins its useful economic life, depreciation will begin.

The Directors have produced detailed cash flow projections and have performed sensitivity analysis on these and are confident that the NDP will proceed. The NDP will be closely monitored and any amounts capitalised, which would not be recoverable in the event that the NDP does not proceed such as a significant proportion of professional fees capitalised that are specific to the proposed stadium site and properties whose market value is below cost, would need to be written-off at that time.

Current taxation

The complex nature of tax legislation under which the Group operates necessitates the use of many estimates and assumptions, where the outcome may differ from that assumed.

2. Revenue

Revenue, which is almost all derived from the Group's principal activity, is analysed as follows:

| | 2015 £'000 | 2014 £'000 |

All revenue except for £433,000 (2014: £341,000) derives from the Group's principal activity in the United Kingdom and is shown exclusive of VAT. Revenue for 2014 has been re-analysed to align with common industry practice.

The UK corporation tax rate of was reduced to 21% from 1 April 2014 and to 20% from 1 April 2015. Therefore the average corporate tax rate for the year is 20.75% (2014: 22.5%). Both of these changes were substantively enacted in Finance Act 2013 on 17 July 2013 and were therefore within tax law on the balance sheet date of 30 June 2015. Deferred tax has been provided at the rate of 20%.

In his budget of 8 July 2015, the Chancellor of the Exchequer announced tax rate changes, which, if enacted in the proposed manner, will have an effect on the company's future tax position. These additional changes will reduce the standard rate of UK corporation tax from 20% to 19% from 1 April 2017, and 18% from 1 April 2020. These proposed changes had not been substantively enacted at the balance sheet date and consequently their effects are not included in these financial statements.

Other than the provision for deferred tax (see note 16) and the items referred to above, there are no items which would materially affect future tax charges.

10. Intangible fixed assets

For the year ended 30 June 2015

£'000

| | |
|-----------------------------------------------------|----------------|
| Cost of registrations | |
| At 1 July 2014 | 208,171 |
| Additions | 37,315 |

| At 30 June 2015 | 207,928 |

| At 30 June 2015 | 99,364 |
| Net book value of registrations | |
| At 30 June 2015 | 108,564 |

Intangible assets relate entirely to the carrying value of the playing squad and are being amortised over the remaining length of the Players' contracts which are between one and six years.

In the period, capitalised player registrations were impaired by £3,014,000 (2014: £10,185,000). Impairment losses were incurred where there was evidence of a permanent diminution in the value of the registrations in accordance with the Group's accounting policy. Recoverable amounts have been estimated as fair values less costs of disposal, in accordance with the Group's accounting policy.

The Directors consider the individual intangible assets relating to three (2014: three) members of the playing squad to be material to the financial statements and note the combined carrying amount of these totalling £34,154,000 (2014: £44,910,000). The cost will continue to be amortised over the remaining contract length which is an average of four years.

Bank loans (in notes 14 and 15)

During the year Bank loans of £1,168,000 as at 30 June 2014 were repaid. These loans were secured by a floating charge over the Group's assets and on certain freehold properties. These loans were being repaid over 23 years, in equal quarterly instalments which began in September 2004. Interest was charged quarterly on the outstanding amount of the loans, at a rate which tracks the Bank of England base rate. The bank loans were shown in the financial statements at 30 June 2014 net of £12,000 of associated loan arrangement costs which were charged to the income statement upon repayment.

The Investec Bank facility of £16,000,000 which was used to fund the construction of the new Training Ground and secured against the new Training Ground site was fully drawn. At the balance sheet date £13,000,000 is outstanding and repayable over five years from December 2012. The interest on this amount is paid quarterly and tracks the London Inter-Bank Offer Rate. The bank loan is shown in the financial statements net of £70,000 of associated loan arrangement costs which are being amortised over the term of the loan.

Other loans (in notes 14 and 15)

Other loans above relate to the issue, at par, of £10,000,000 7.29% secured loan notes by the Group in November 2002 and a further issue, at par, in November 2006 of £20,000,000 7.29% secured loan notes. The £10,000,000 loan notes were used to repay short-term debt and to fund the Group's general working capital requirements. These notes are repayable in equal annual instalments over 20 years from September 2003.

The £20,000,000 loan notes are repayable in equal instalments over 16 years from September 2007. As a result of the commitment made during June 2015 to repay the loan notes in the next 12 months the loan notes have been re-classified as a current liability at 30 June 2015 and a provision for early repayment charge of £3,552,000 has been included within other payables.

The loan notes are secured against White Hart Lane Stadium, and future gate and corporate hospitality receipts generated at the Stadium. At the balance sheet date £18,535,000 of the loan notes are outstanding. Treasury policy

The Group's operations are currently funded through operating cash flow, cash balances and loans. The Group hedges its interest rate exposure by using fixed interest rate facilities where deemed appropriate. The Group is exposed to foreign currency exchange risk through its player transactions but manages its working capital inflow and outflow to minimise any material foreign exchange risk. The Group does not enter into instruments for speculative purposes. All treasury transactions are reported to and approved by the Board.

17. Financial instruments

Capital risk management

The Group manages its capital to ensure that entities in the Group will be able to continue as going concerns while maximising the return to shareholders through the optimisation of the debt and equity balance. Strong financial capital management is an integral part of the Directors' strategy to achieve the Group's stated objectives. The Directors review financial capital reports on a regular basis and the Group finance function do so on a daily basis ensuring that the Group has adequate liquidity. The Directors' consideration of going concern is detailed in the Directors' Report. The capital structure of the Group consists of debt, which includes the borrowings disclosed in notes 14 and 15, cash and cash equivalents and equity attributable to equity holders of the parent comprising issued capital, reserves and retained earnings as disclosed in note 19 and the statement of changes in equity.

Financial risk management objectives and policies

The Group's financial assets include cash and cash equivalents and other short-term deposits. The main purpose of these financial instruments is to finance the Group operations. The Group has other financial assets and liabilities such as trade and other receivables and trade and other payables, which arise directly from its operations. The Group's receivables and payables from player trading are contractually structured in order to minimise financial risk. Surplus cash within the Group is put on deposit, the objective being to maximise returns on such funds whilst ensuring that the short-term cash flow requirements of the Group are met.

The carrying value of the financial assets and liabilities (with non-financial assets and liabilities shown for reconciling purposes) are analysed as follows:

The Group has not used derivative financial instruments during the year. The Board will review the need for the use of derivative financial instruments in the future.

The Group has exposure to the following risks from its use of financial instruments:

- (i) market risk;
- (ii) credit risk; and
- (iii) liquidity risk.

This note presents information about the Group's exposure to each of the above risks and the Group's objectives, policies and processes for measuring and managing risk.

(i) Market risk

The Group's activities expose it primarily to the financial risks of changes in foreign currency exchange and interest rates.

Interest rate risk

The Group is exposed to interest rate risk because entities in the Group borrow at both fixed and floating interest rates. Having borrowings at both fixed and floating rates spreads the risk of significant movements in the interest rate. The Group does not consider this risk as significant.

Interest rate sensitivity analysis

The sensitivity analysis below has been determined based on the exposure to interest rates for financial instruments at the balance sheet date. For floating rate cash deposits, the analysis is prepared assuming the amount of deposits outstanding at the balance sheet date were outstanding for the whole year. A 50 basis point increase or decrease is used when reporting interest rate risk internally to key management personnel and represents management's assessment of reasonable possible changes in interest rates.

If interest rates had been 50 basis points higher/lower and all other variables were held constant, the Group's profit for the year ended 30 June 2015 would decrease/increase by £73,223 (2014: decrease/increase by £78,590). This is mainly attributable to the Group's exposure to interest rates on its floating rate loans.

17. Financial instruments (continued)

Foreign currency management

The presentational currency of the Group is UK Sterling. The Group is exposed to currency risk due to movements in foreign currencies relative to Sterling affecting the Group's foreign currency transactions and balances.

The carrying amounts of the Group's foreign currency denominated monetary assets and monetary liabilities at the reporting date are as follows:

| | Liabilities | | Assets | |
|-------------------|---------------|---------------|---------------|---------------|
| | 2015 £'000 | 2014 £'000 | 2015 £'000 | 2014 £'000 |
| Euro | 13,811 | 44,253 | 19,014 | 65,895 |
| US Dollar | 1,483 | - | 3,420 | 10,628 |
| Australian Dollar | - | - | 863 | - |

These amounts principally relate to player transfer liabilities and receivables.

Foreign currency sensitivity analysis

The Group is mainly exposed to the Euro, US Dollar and Australian Dollar. The following table details the Group's sensitivity to a 10% increase and decrease in Sterling against the Euro, US Dollar and Australian Dollar. 10% is the sensitivity rate used when reporting foreign currency risk internally to key management personnel and represents management's assessment of the reasonably possible change in foreign exchange rates. The sensitivity analysis includes only outstanding foreign currency denominated monetary items and adjusts their translation at the period end for a 10% change in foreign currency rates. The positive number below indicates an increase in profit and retained earnings where Sterling strengthens against the Euro, US Dollar or Australian Dollar. For a 10% weakening of Sterling against the Euro, US Dollar or Australian Dollar, there would be an equal and opposite impact on profit and retained earnings.

| | 2015 £'000 | 2014 £'000 |
|-------------------|---------------|---------------|
| Euro | 578 | 2,405 |
| US Dollar | 215 | 1,149 |
| Australian Dollar | 96 | - |

(ii) Credit risk

Credit risk refers to the risk that a counterparty will default on its contractual obligations resulting in financial loss to the Group. Of the total trade receivable balance of £68,060,000, £53,464,000 relates to amounts receivable from various other football clubs in relation to player trading. The maximum credit exposure relates to the total of cash and cash equivalents, and trade receivables and is £78,783,000.

There are no other significant concentrations of credit risk within the Group. The maximum risk exposure relates to football creditors but this is mitigated by the governing bodies of international and national football associations.

Credit evaluations are performed on all customers requiring credit over a certain amount. The maximum credit risk exposure of the Group comprises the amounts presented in the balance sheet which are stated net of provisions for doubtful debts.

(iii) Liquidity risk

The Group's policy is to maintain a balance of continuity of funding and flexibility through the use of loans and finance leases as applicable. The annual Group cash flow is cyclical in nature with the majority of cash inflows being received prior to the start of the playing season.

Ultimate responsibility for liquidity risk management rests with the Directors. The Directors use management information tools including budgets and cash flow forecasts to be able to constantly monitor and manage current and future liquidity.

The maturity profile of the Group's borrowings is shown on pages 26 and 27 along with the Group's borrowing facilities as at the balance sheet date.

1. Accounting policies

The following accounting policies have been applied consistently by the Directors in both the current and preceding periods in dealing with items which are considered material in relation to the Company's accounts.

Basis of accounting

The accounts have been prepared in accordance with applicable United Kingdom law and Accounting Standards and under the historical cost convention with the exception that certain freehold and leasehold properties have been revalued.

Cashflow statement

Under the provisions of Financial Reporting Standard 1 (Revised) the Company has not presented a cash flow statement, as the results of the Company are included within the consolidated financial statements.

Capital grants

Capital grants relate to amounts receivable from public bodies and football authorities and are treated as deferred income and released to the profit and loss account over the estimated useful life of the asset concerned.

Foreign exchange

Transactions denominated in foreign currencies are translated into Sterling and recorded at the rates of exchange ruling at the date of the transactions. Monetary assets and liabilities denominated in a foreign currency are translated into Sterling at the exchange rates ruling on the balance sheet dates. Translation differences are dealt with in the profit and loss account.

Tangible fixed assets

Freehold land is not depreciated. Leasehold property is amortised over the term of the lease. Other fixed assets are depreciated on a straight-line basis at annual rates appropriate to their estimated useful lives as follows:

| | |
|-----------------------------|----------|
| Freehold properties | 2% |
| Motor vehicles | 20% |
| General plant and equipment | 10 – 33% |

The Group has taken advantage of the transitional provisions of FRS 15 'Tangible Fixed Assets' and retained the book amounts of certain assets which were revalued prior to implementation of that Standard. The properties were last revalued at 31 July 1998 and the valuations have not subsequently been updated.

Fixed asset investments

Investments held as fixed assets are stated at cost less provision for impairment.

Stocks

Stocks, which comprise goods held for resale, are valued at the lower of cost and net realisable value.

Debt

Debt is stated initially at the amount of the net proceeds after deduction of issue costs. The carrying amount is increased by the finance cost in respect of the accounting period and reduced by payments made in the accounting period.

Leases

Rental costs under operating leases are charged to the income statement in equal annual amounts over the periods of the leases.

Deferred taxation

Deferred taxation is provided in full on timing differences that result in an obligation at the balance sheet date to pay more tax, or a right to pay less tax, at a future date, at rates expected to apply when they crystallise based on current tax rates and law. Timing differences arise from the inclusion of items of income and expenditure in taxation computations in periods different from those in which they are included in the financial statements. Deferred taxation assets are recognised to the extent that it is regarded as more likely than not that they will be recovered.

Deferred taxation is not provided on timing differences arising from the sale or revaluation of fixed assets unless, at the balance sheet date, a binding commitment to sell the asset has been entered into and it is unlikely that any gain will qualify for rollover relief.

1. Accounting policies (continued)

Pension costs

Payments are made to the external defined contribution pension schemes of eligible employees of the Company. The pension cost charged in the year represents contributions payable by the Company to these schemes.

Under the provisions of FRS 17 'Retirement Benefits' the Scheme would be treated as a defined benefit multi-employer scheme. The Scheme's actuary has advised that the participating employers' share of the underlying assets and liabilities cannot be identified on a reasonable and consistent basis and, accordingly, no disclosures are made under the provisions of FRS 17.
